General Contractor: Removal of doors and frames on the interior of the High school Gym is complete. Openings are being widened to accommodate the new doors. Fireproofing over the hallway doors at the HS is complete.

At CDE abatement is complete on the entire first floor and Final air tests for all first floor areas have passed. All plastic has been taken down as well.

The second floor has been 100% prepped for abatement to begin on Monday.

The floor-leveling subcontractor is scheduled to begin on Monday for the first floor. It takes 5 days to cure. New floor tile is scheduled to begin on 7/27.

The 2<sup>nd</sup> floor fan room new firewall extension is on hold pending the abatement completion.

The crews only worked one double shift this past week so there was no additional cost to the district for air monitoring.

We had some water damage in the CDE Principals office due to the abatement contractor accidentally opening valve. The Principals desk may need to be replaced by the contractor.

There was only one additional cost item this week. Several small existing steam pipes that were abandoned some time ago needed to be cut off flush with the floor and filled. This was done on T&M and will be an allowance charge.

The Elementary playground final layout was again rejected as a few items again were missed. We expect that to be in hand this week.

We are scheduled to begin removing windows at the HS within a week. This is pending written confirmation of frame delivery.
