II. Cairo-Durham Central School District Vision, Mission, and Theory of Action

Vision: What We Want to Be

The Cairo-Durham Central School District will provide a collaborative and engaging environment that is committed to the educational excellence of each individual student. By fostering high expectations and creating educational leaders, we will be recognized regionally and across the state as an exemplary school system.

Mission Statement: What We Do

The Cairo-Durham Central School District, in partnership with the community, is committed to creating multiple learning pathways that empower all students to maximize the individual potential and become leaders in their local and global communities.

District Theory of Action

Cairo-Durham Central School District

Theory of Action

IF, we embody our motto of Expect Excellence, we will...

THEN, we need to be deliberate about improving on the following...

III. Professional Development Program Overview

- A. The Cairo-Durham Central School District will provide a collaborative and engaging environment that is committed to the educational excellence of each individual student, staff and faculty member. By fostering high expectations and creating educational leaders, our goal is to improve student learning and to meet district expectations by building skill, increasing knowledge and encouraging professional growth and renewal.
- B. All professional development activities approved through the district will require the completion of a program evaluation form through MyLearningPlan. This evaluation will be used to gauge effectiveness of the professional development provided and also be utilized to plan future professional development needs.
- C. Professional development will ensure our students progress in an exemplary manner toward graduation and will support District Policy 9701 (Staff Development, District Policy 4200 (Curriculum Development) and Part 100 Regulations.

This plan will be revised on a yearly basis to ensure that the needs of the students, staff, and faculty throughout the district are being addressed effectively.

IV. Determining Professional Development Needs and Evidence of Impact

The Cairo-Durham Central School District utilizes data from multiple sources when determining the professional development needs of the district according to the categories listed below. Upon completion of professional development opportunities, these same sources will be used to determine the evaluation of their impact upon student achievement.

A. School Report Card Data:

- Educator Data
 - Annual Professional Performance Review Ratings
 - State-Provided Growth Ratings
- Assessment Data
 - NYS Public School 3-8 and Regents Assessment Data
- Higher Education Data
 - Teacher and School Leader Certification
- Student Data
 - Public School Enrollment Data
 - Free and Reduced Lunch Data
 - Student Demographic Performance

 - Student Attendance Rates
 - Public High School Graduation Rate

B. Implementation and Monitoring of District Goals or Initiatives

The purpose of district-wide goals and initiatives are to set in place systems or programs which provide accurate and consistent data, protocols, and/or program use and expectations for all stakeholders. These such goals and initiatives need to be routinely monitored and reflected upon to ensure their effective implementation and their impact over time within the district.

C. Student Formative Assessment Data

The goal of formative assessment is to monitor student learning to provide ongoing feedback that can be used by instructors to improve their teaching and by students to improve their learning. These assessments help faculty recognize where students are struggling and address problems immediately. The formative assessment process guides teachers in making decisions about future instruction. Formative assessments are generally *low stakes*, which means that they have low or no point value.

D. Student Summative Assessment Data

The goal of summative assessment is to evaluate student learning at the end of an instructional unit by comparing it against some standard or benchmark. Summative assessments are often *high stakes*, which means that they have a high point value.

E. Feedback from Students, Parents, Staff, Faculty and Administrators

- Administrative Leadership
- Human Resources Committee
- Resource Allocation Committee
- Professional Development Committee
- Data Driven Instruction Committee
- Technology Committee
- District Curriculum Development Committee
- Pupil and Personnel Services Committee
- Instructional Practices and Student Achievement Committee

V. Purpose of Professional Development

All professional development in the Cairo-Durham School District is connected to three structures that guide and inform activities. They are: 1) The overarching district plan that includes goals and Aim High Targets, 2) The school plan that is tailored to specific school and staff learning needs as they relate to the overarching district goals and the instructional program goals for students in that school, and 3) The individual plan set by staff in their Professional Growth and Performance Assessment plans. Instructional staff are encouraged to set at least one of their professional goals to align with school and district goals.

VI. Cairo-Durham Central School District Priority Statement: “Expect Excellence”

Based on the results of our data collection process and discussion among the administrative team, goals and objectives will be set and addressed for each school year. The goals and objectives set by the school district will then become the framework under which all professional development must support during the specified school year.

VII. District Professional Development Goals
