

Cairo-Durham Central School District

Theory of Action

IF, we embody our motto of Expect Excellence, we will...

Empower and engage students, parents and community to be active in the educational process.

**Expect
Excellence**

Engage all faculty and staff to grow continuously as educators.

Increase the rigor and alignment of our curriculum.

THEN, we need to be deliberate about improving on the following...

Create a standardized decision making process that follows a clear governance protocol and focuses on the use and monitoring of data.

Dedicating the resources to develop a PK-12 aligned curriculum that addresses the rigor put forth in the CCLS.

Provide targeted professional development that supports continuous growth.

Establishing a culture of teamwork that supports continuous improvement and enhances collaboration amongst all district staff, parents, and the community.
